

# Dalmau Consulting

## Invitation to our Leadership Master Class Series

Leadership Skills that give you that edge  
and put you in the driving seat to  
influence for success!

For over 30 years Dalmau Consulting has successfully delivered leadership skills to the world's top leaders in health services, resources companies, multi-national professional services firms, government agencies, steel companies, community organizations and many others here and across the globe.

For the first time, this knowledge will be delivered to the broader public though Dalmau Consulting's Leadership Master Class Series.

The Dalmau Consulting Leadership Master Class Series is for you if you are a leader, executive, middle manager or supervisor who wants to join other leaders and learn to lead and influence more effectively.

# THE PROGRAM

Delivered by members of the Dalmau Consulting team, the **Leadership Master Class Series** consists of three one-day sessions, designed to stand alone but also fit into a coherent three-day program. You can choose to attend one, two or all three days. The topics for each day are:

## [Day 1 - Influential leadership: Practical skills that make a difference to getting your outcomes](#)

In this Master Class the focus is on building blocks for improved communication – verbal and non-verbal skills that give you the ability to be more effective in your one-on-one and group interactions.

You will have a chance to practice skills, and be given new ways of thinking about human behavior so that you can better get what you want from your interactions with others.

## [Day 2 – Making meetings matter: How to get the most from meetings or working with groups or teams](#)

In this Master Class we share a simple model for improving the effectiveness of meetings that, in our experience, “really sticks” because it makes sense and is easy to remember and use.

We will cover the importance of preparation, and what needs to be thought about before you walk into a meeting. We give you some specific processes, meeting designs and tips on how to manage people or difficult group dynamics so that you get your outcomes.

## [Day 3 – Solving difficult problems: An approach that really works](#)

In this Master Class you will be introduced to a different type of thinking especially suited to the many of problems people in organizations face.

You will be taught a practical approach that has worked in the across all sectors and the enormous variety of organizations Dalmau Consulting regularly works with.

This approach works really well for diagnosing problems, planning, mapping conversations, coaching, managing projects and aligning people for action.
